

## Community Grants – Call for Applications

Do you run a local club or society that benefits the East Haddon community?  
Are you thinking of starting a new group or initiative that could bring people together, encourage participation, or improve life in the village?

East Haddon Parish Council is inviting applications for community grants.

We are keen to support local clubs, societies, and voluntary groups with financial assistance to help them continue their valuable work – or to help new initiatives get off the ground. You will need to demonstrate how your club benefits the Parish by:

- Providing a service
- Enhancing the quality of life of residents
- Improving recreation and/or sports facilities
- Improving the environment
- Promoting the Parish of East Haddon in a positive way

If your group is based in East Haddon or serves the residents of the village, we encourage you to apply.

Please get in touch with the Parish Clerk for an application form
