

Holdenby Road, East Haddon Footway Construction

Start date:

Monday 1 November 2021

Completion:

Tuesday 16 November 2021

Scheme type – Footway construction**Traffic management:****1 to 14 November 2021 –****Temporary 2 way traffic lights****15 and 16 November –****Road closure****Hours of work** – 08:00 – 17:00

What we are doing/the benefits – Northamptonshire Highways will soon start footway construction works on Holdenby Road, East Haddon.

Works include: Footway construction drainage installation and verge reinstatement.

This work will create a vital extended link to the existing footway network, providing a safe route for pedestrians from/to the extents of the village and residential properties.

Information for residents

Access/egress: Traffic management will be in place for the duration of the works. Initially temporary traffic signals for 2 weeks, then a 2 day road closure to complete works.

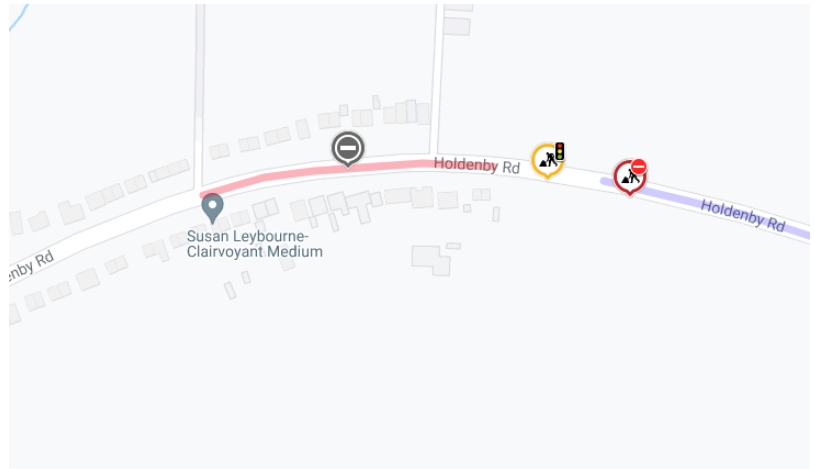

During the road closure phase our contractor will manage vehicle access/egress on the affected section of Holdenby Road. There will be vehicle hold points on the approaches to the works.

Once it is safe, one of our team members will escort you through the works. This will be for access only purposes to residents and businesses and there will be no through route for other motorists. Please allow extra time for your journeys.

If you require egress from your property and you are **outside the working area** please exit slowly and carefully with your hazard warning lights on. Our team will be stationed at the closure points and are there to help. Depending on current works being undertaken you may be asked to follow the diversion in a particular direction.

If you require access/egress to a property **directly within the working area** please speak to a member of the site team who will be happy to assist. This applies during the temporary traffic light and road closure.

Please note driveways that form part of the proposed footway construction may be blocked at times and vehicle access/egress will not be possible. We will keep you informed and work with you to plan access arrangements. Please contact the site manager if you have any specific requirements and we will be happy to assist where possible.

Holdenby Road, East Haddon Footway Construction

Pedestrians: Access for pedestrians will be maintained at all times. No existing footways affected.

Cyclists: Cyclists should use the alternative route or dismount and walk through the site during road closure phase.

Contact: If you have any concerns or wish to discuss these works or access arrangements, please contact the site manager on the number below.

Traffic management

When programming works, we consider the impact on all network users and plan our works to minimise disruption as much as possible.

Works will be predominantly completed using temporary 2-way traffic signals. However certain elements of work will require a full road closure towards the end of the works programme.

The section highlighted on the map in **red** will be closed to ensure the safety of the public and our workforce.

During the road closure a diversion route, shown in **blue**, will be in place at all times. The red line shows the works extents and the blue line is the diversion. Please also refer to [one.network](https://www.one.network)

Our commitment to you

Northamptonshire Highways is committed to the consistent improvement of the places and spaces in Northamptonshire and to working closely with local communities, residents and businesses to build a better County. We promise to

- Keep the public informed of our programme and any changes
- Minimise disruption
- Co-ordinate with other road works

Contacting us

To ensure we deal with all enquiries and defect reports correctly, please use our online public reporting service, Street Doctor. This process ensures issues are recorded and dealt with appropriately. Once reported you will be issued with a unique reference number and be able to follow the progress of your enquiry.
